

Goran Stošić cover letter

Hello,

As a WordPress developer with 12 years of experience, I have a strong track record of building fast, user-friendly websites that meet modern performance standards. Based in Belgrade, Serbia, I specialize in PHP, React, and JavaScript, which enables me to work across both WordPress and custom frameworks effectively.

The opportunity to contribute to a platform that automates page creation while achieving 90+ PageSpeed Insights scores is genuinely exciting and aligns well with my expertise. I would love to learn more about your workflow, particularly the technologies and processes involved in transforming questionnaire data into fully functional WordPress pages.
